PREFACE

This book catalog, computer produced in conjunction with the National Library of Medicine, is divided into two sections:

- 1) subject
- 2) author/title.

Supplements will be distributed as book purchases warrant for inclusion in the back of the catalog, and cumulations replacing all previous distribution will be issued annually.

The call number, by which the book is shelved, is at the bottom of each catalog entry and is preceded by a symbol for one or more libraries and a colon:

DNLM: WS 310 R137a 1970.

The book you seek may be:

- 1) in the Reference Collection
- 2) in the Circulating Collection in the stacks
- 3) charged out for two week loan
- 4) charged out on indefinite loan
- 5) AWOL

and the catalog does not indicate which category your request is in.

Records for books on AWOL have not been deleted from the catalog because the books may be returned eventually.

Books you need but do not find in the catalog or on the shelf may be borrowed from another library on Interlibrary Loan upon request.
